

## WILL CUT WAR TAX ABOUT \$20,000,000

WAYS AND MEANS COMMITTEE  
CALLED TO MEET NOV. 20.

This Will Be One of the First Duties  
to Be Taken Up by the New Con-  
gress—It Was Agreed Upon in  
a Conference Recently Held with  
President McKinley.

Washington, D. C., Nov. 10.—Steps  
will be taken at once by the republi-  
cans of the house to reduce the war  
taxes. Chairman Payne, after con-  
sulting President McKinley today in  
regard to legislation which will be con-  
sidered this winter, announced that  
he would call a meeting of the Ways  
and Means Committee, to meet on  
November 20, to map out a legislative  
program for the coming season, with  
particular attention to the repeal of  
portions of the war revenue act.

Those who had hoped to see at  
least half of the taxes removed will  
be disappointed as it is contemplated  
that taxes only to the amount of \$20-  
000,000 will be removed, the heavy ex-  
penditures attendant upon the cam-  
paign in the Philippines not permit-  
ting a further reduction.

At the end of last season there was  
tremendous pressure for the removal  
of certain taxes, the beer, whisky, and  
medical agents being particularly ur-  
gent in their demands.

### Problem Is What Taxes?

The problem as to what taxes shall  
be removed is a perplexing one, but it  
has already been determined in a gen-  
eral way that those which are most  
troublesome to the people, such as the  
stamp taxes, will be removed first.  
This probably means that the stamps  
upon checks, proprietary medicines,  
deeds, mortgages, inheritances, for  
charitable and benevolent purposes,  
and stamps upon telegrams will be  
abolished.

It is quite certain that there will  
be no reduction in taxes upon large  
commercial transactions and there is  
a growing feeling in favor of contin-  
uing a large part of this tax. The traders  
in Wall Street pay a large portion  
of this tax the amount last year run-  
ning up into the millions.

### Will Cut Off \$15,000,000.

The first cut will be a cautious one  
and will not exceed \$15,000,000 or \$20-  
000,000. It will be made in articles  
put in the law under the stress of  
war times. In the tax upon inheri-  
tances, for instance, no exception was  
made upon bequests for charitable  
and benevolent purposes. The tax  
will be taken off such bequests. There  
will be a reduction on deeds, mor-  
tgages, etc.

No cut will be made in the taxes  
upon large commercial transactions,  
and there is a growing feeling in fa-  
vor of permanently continuing this  
tax. It falls upon the wealthy and is  
in a measure an income tax.

In his letter of acceptance of the  
republican nomination the president  
indicated that congress would probab-  
ly reduce the war taxes. His mes-  
sage to congress will contain some-  
thing upon this subject.

## WANT LIVE STOCK SANITARY BOARD

State Board of Agriculture Wants New  
Statute—Mass Convention of  
Farmers Feb. 4, 6.

Madison, Wis., Nov. 10.—As a result  
of yesterday's meeting of the State  
Board of Agriculture, the next legis-  
lature will be asked to create a state  
livestock sanitary commission to deal  
with the contagious diseases of farm  
animals, particularly tuberculosis in  
cattle. George McKerron and Geo.  
Wylie of Leeds, representing the Board  
of Agriculture, together with repre-  
sentatives of the state board of health  
and the experiment station and state  
veterinarian, Clute, will present the  
matter to Governor La Follette early  
in January, where they will discuss  
plans for a general revision of the  
laws pertaining to tuberculosis in cat-  
tle.

It was voted by the board to hold  
a mass convention in Madison Feb. 4,  
5 and 6, at which it is expected that  
many Wisconsin farmers interested  
in agricultural progress will be pres-  
ent. Papers will be read by promi-  
nent members of the board and by  
many of the men who are engaged in  
the farmers' institute work.

President George McKerron, Secre-  
tary John M. True, C. G. Wilcox of De-  
Pere, S. D. Hubbard of Mondovi and  
George G. Cox of Mineral Point were  
chosen a committee to visit the annual  
convention of the American Association  
of Fairs and Expositions which  
meets in Chicago, December 6.

The report of State Treasurer David-  
son which was submitted to the board  
shows, after allowing all claims, a  
balance in the treasury of \$7,902 to the  
credit of the State Board of Agricul-  
ture.

Kruger on Sea for France.

Paris, Nov. 10.—Kruger left Port  
Said yesterday on the cruiser Gelderland  
and will arrive at Marseilles  
about Nov. 20.

## WAGE WAR ON POLYGAMY.

New Jersey Women Petition for an  
Amendment to Constitution.

East Orange, N. J., Nov. 10.—The  
Ladies' Aid Society of Calvary Metho-  
dist Episcopal church has adopted the  
following resolution, copies of which  
have been sent to United States Sena-  
tors Sewell and Keam:

"Resolved, That we do most respect-  
fully and most earnestly petition you  
to use your utmost endeavor and ex-  
haust all honorable means to secure  
the passage of the anti-polygamy  
amendment to the constitution of the  
United States at the next session of  
congress."

Many of the women's societies in  
this section have joined in the crusade  
against polygamy and will put them-  
selves on record by resolutions simi-  
lar to the above.

## BADGER DEMOCRATS OPPOSE DICKINSON

Mass Meeting Will Be Called Shortly  
to Express Their Resentment—  
Renew Allegiance to Bryan.

Milwaukee, Wis., Nov. 10.—Wiscon-  
sin democrats who have followed the  
banner of Mr. Bryan for the past four  
years grow warmer under the collar  
the more they think of Mr. Dickinson's  
proposition. A few who gathered at  
the democratic state headquarters last  
night used Secretary Noel as amanu-  
ensis to voice their feelings in a proclama-  
tion, where, after giving their views  
as to the reasons of the great and  
slides in 1896 and 1900, they called  
a mass meeting of the democrats in  
the state, "for the purpose of express-  
ing formally our resentment against  
and determination to oppose the re-  
organization of opportunists who pro-  
fited by our party victories and desert-  
ed it in the hour of its adversity."

The proclamation closed with re-  
newed allegiance "to our peerless  
leader, William Jennings Bryan." Mr.  
Noel said today that the call for a  
mass-meeting may not materialize in-  
to anything, as it was not signed, but  
was drawn up to express the feelings of  
those present at the meeting.

## SOUTH DAKOTA VOTE GROWS.

McKinley's Is Estimated at More  
than Twenty Thousand.

Sioux Falls, S. D., Nov. 10.—The  
election in South Dakota has proven  
to be the greatest and most complete  
landslide in the history of the state.  
Chairman Crane of the republican  
committee has received returns from  
950 out of 1,150 precincts, which gave  
McKinley a majority in round num-  
bers of 18,000. Four years ago the  
same precincts gave Bryan in round  
numbers about 1,000 majority. Using  
the precincts heard from as the basis  
of an estimate, McKinley will carry  
South Dakota this year by about 20,000  
and some place the plurality as high  
as 22,000.

The legislature is overwhelmingly  
republican. All the counties have  
been heard from and the republicans  
have elected 118 out of 132 members,  
leaving Senator Pettigrew but fourteen  
supporters. The state ticket will per-  
haps run a thousand or two behind  
the national ticket.

The fight now among the politicians  
will be the successor to Senator Petti-  
grew.

## STRICKEN WITH PARALYSIS.

Walter Carmen, Aged 60 Years, Is Not  
Expected to Live.

Edgerton, Wis., Nov. 10.—Walter  
Carmen, aged 60, while loading stock  
at the stock yards this morning, suf-  
fered a stroke of paralysis. Owing to  
his advanced age there is little hope for  
his recovery.

### Francis Murphy League.

Don't forget to attend the meeting  
of the Francis Murphy League at the  
Y. M. C. A. auditorium tomorrow af-  
ternoon. Rev. A. G. Wilson will speak  
and good music will be in attendance.  
This is a good cause and should have  
the support of all interested in rescu-  
ing their fellows from the evils of in-  
temperance.

### Charge Fraud in Kentucky.

Louisville, Ky., Nov. 10.—The demo-  
cratic managers issued final claims  
this morning and closed up headquarters.  
They said that Beckham is elected  
governor by four thousand and  
Bryan gets the electoral vote by about  
the same majority and that the state  
can be safely depended upon for the  
democrats from this time on. The re-  
publicans concede Beckham's election,  
but charge systematic fraud through-  
out.

### Secretary Gage Will Retire.

New York, Nov. 10.—It is reliably  
stated at republican headquarters to-  
day that Secretary of the Treasury  
will be succeeded by Comptroller of the  
Currency Dawes.

### Verdict Against Howard Gould.

New York, Nov. 10.—The jury in the  
Howard Gould case this morning re-  
turned a verdict giving his valet,  
Mowbrays, five thousand dollars dam-  
ages.

## MRS. YOUMANS IS MADE PRESIDENT

WAUKESHA LADY HEADS THE  
FEDERATION OF WOMEN.

She Defeats Mrs. Vedder of Milwaukee  
for the Honor—Bursts of Eloquence  
in Nominating the Candidates—  
There Was No Contest on Other  
Officers of the Federation.

Racine, Wis., Nov. 10.—The Wiscon-  
sin Federation of Woman's clubs had a  
lively time today in the election of a  
president. It was the most bitter  
contest in the history of the federation  
the factional struggle lasting over two  
hours.

The two candidates before the con-  
vention, Mrs. H. M. Youmans of Wau-  
kesha and Mrs. C. R. Vedder of Mil-  
waukee, had their forces well in hand,  
and the earnestness and confidence of  
each side gave spirit to the contest.  
On the informal ballot Mrs. Youmans  
received over two-thirds of the votes  
cast, and an effort to make her elec-  
tion unanimous was made after the  
meeting had started to take a formal  
ballot, which motion was overruled by  
the president.

Mrs. Vedder Withdrew.  
On the first ballot Mrs. Youmans re-  
ceived 105 votes and Mrs. Vedder 45.  
Although there was no objection to  
the ballot being declared formal Mrs.  
Vedder withdrew her name and Mrs.  
Youmans received 134 votes and was  
declared the unanimous choice.

Although there was much bitter  
feeling among the defeated, they con-  
gratulated the new president and  
promised to do all in their power to  
make the next year's work of the fed-  
eration a success.

The new president is the wife of a  
newspaper man of Waukesha and has  
been prominent in woman's clubs for  
years, and for two years has been pres-  
ident of the Waukesha club. She has  
also been one of the district vice pres-  
idents of the state federation. The  
officers elected were:

kesha, 105.

cine.

ture and on woman's work, those tak-  
ing part being Mrs. Grace Darling-  
Madden, Milwaukee; Mrs. Webster E.  
Brown, Rhinelander; Mrs. J. T. Hooper,  
Ashland; Mrs. Vincent S. Stone,  
Racine; and Mrs. L. E. Stearns, Mil-  
waukee. Mrs. Ella W. Peattie of Chi-  
cago spoke on "The Trend of the So-  
cial Life."

The feature of the program last eve-  
ning was an address by Miss Jane  
Adams of Chicago on "Woman's Clubs  
and Industrial Problems."

## FAIR AT BELOIT TO BE A SUCCESS

Officers and Directors Are Elected and  
The Purchase of Site Selected  
Has Been Ordered.

Beloit, Wis., Nov. 10.—The stock  
holders of the newly incorporated Be-  
loit and Interstate Fair and Driving  
Association met last night and elected  
officers and made arrangements for  
the actual establishment of the enter-  
prise.

The officers and directors elected  
are from the most substantial farmers  
and business men of this community  
and the new association is certainly  
in excellent hands.

The officers are as follows:  
President—A. P. Lovejoy.  
Vice President—J. N. Chamberlain.  
Secretary—C. H. Everett.  
Treasurer—W. A. Hendley.  
General Superintendent—George H.  
Cram.

The directors are: John James,  
Charles Lathers, L. Barningham, C. A.  
Gault, J. B. Dow, L. S. Mosley, A. N.  
Bort, A. F. Goss, A. P. Lovejoy.

The committee having the sale of  
stock in hand were directed to push  
their work with vigor.

All of the fifteen thousand dollars  
will soon be subscribed, for Superin-  
tendent Cram was authorized to close  
the deal for the land and proceed with  
the construction of the track and  
buildings. There is much satisfac-  
tion on the part of the association's  
officers who believe this spirit is shared  
by the citizens of Southern Wiscon-  
sin and Northern Illinois. They have  
no doubt about the association being  
a success from the first.

### Snow Storm in Chicago.

Chicago, Nov. 10.—The real thing  
in the way of a snow storm and bliz-  
ard struck Chicago this morning and  
will pass over the lakes according to  
the weather bureau.

## DESPERATE FIGHT EAST OF PRETORIA

BOERS RESIST THE BRITISH  
FOR TWO WHOLE DAYS.

Two Hundred Mounted Burghers Charge  
Rear Guard of the Canadians and  
Capture Eighteen of Them—Gen.  
Buller Was Given an Ovation in  
England Today.

London, Nov. 10.—General Roberts  
reports another fierce engagement  
with the Boers east of Pretoria on  
the Delago railroad. His report says  
"Smith-Dorrien had a long and severe  
action of two days with the Boers  
near Belfast. Later an unprecedent-  
ed event in this war occurred; two  
hundred mounted Boers charged the  
rear guard of the Canadians and cap-  
tured eighteen of them but treated  
them kindly and released them later.  
London Honors General Buller.

Southampton, Nov. 10.—General  
Buller, who arrived from South Afri-  
ca last night, was today escorted by  
the mayor and corporation to Hartly  
Institute where the freedom of the  
city was conferred upon him. An  
enormous crowd gathered about the  
institute and cheered Buller. After  
the ceremony Buller boarded the train  
for Aldershot where he will review  
the field maneuvers this afternoon  
and be one of fifty thousand witnesses.

## THREE CANDIDATES FOR SPEAKERSHIP

George H. Ray, A. R. Hall and Fran-  
cis B. Keene Mentioned to Pre-  
side Over Badger Assembly.

Milwaukee, Nov. 10.—Now that the  
election is over the question of who  
shall be the speaker of the assembly is  
attracting the notice of the politicians.  
This is a matter which the republicans  
will settle without taking any thought  
as to how the sixteen democrats in the  
lower house will like their action.  
Three names are already mentioned for  
the place—George H. Ray of La Crosse  
who was speaker of the last legisla-  
ture; A. R. Hall, the leader of the anti-  
railroad forces, and Francis B. Keene  
of this city, who made a good record  
in the last house.

Mr. Ray has announced his candi-  
dacy or at least states he would be  
willing to accept the office, which is  
looked upon as the initial move in his  
candidacy. The admirers of Mr. Hall  
would like to see him in the speaker's  
chair, but there is some doubt as to  
whether he would care to take the  
position and may prefer to remain on  
the floor, where his capacity for lead-  
ership would inevitably make him  
prominent in legislation. Mr. Keene's  
friends have broached his name in a  
tentative way. The presidency pro-  
tem of the senate will go to one of  
the hold-over senators.

## BOHRMICH GOES TO MILWAUKEE.

Defeated Democratic Candidate An-  
nounces That He Will Quit Kenosha.

Kenosha, Wis., Nov. 10.—Louis G.  
Bohrnich, the defeated democratic  
candidate for governor announces that  
he will remove from Kenosha to Mil-  
waukee. The announcement of the  
move was made this morning, and it  
is thought that the recent election had  
something to do with the change.  
However, Mr. Bohrnich claims he had  
intended to remove to Milwaukee be-  
fore he was nominated for governor.

## IOWA'S QUEER PREDICAMENT

Will Have a Constitutional Convention  
Without Any Necessity For It.

Des Moines, Iowa, Nov. 10.—Returns  
from thirty counties, all that can be  
secured before the official count, show  
that the constitutional amendment  
providing for holding biennial instead  
of annual elections in Iowa has un-  
doubtedly been adopted by 25,000 plu-  
rality.

An interesting feature of the result  
is that the state is likely to find itself  
with a constitutional convention on  
its hands without any particular time  
or necessity for one. The constitution  
requires that the question "Shall  
there be a convention to revise the  
constitution?" be submitted every ten  
years. It was submitted this year, but  
there has been no agitation in the  
press or otherwise for the convention.  
It was taken for granted by state of-  
ficers and political managers that  
it would be voted down.

### Gen. MacArthur's Report.

Washington, Nov. 10.—General Mac-  
Arthur's annual report written Sep-  
tember 1, was made public today.  
Every question of the Philippines is  
treated and the inference drawn by  
many of those at headquarters is if the  
United States is to conquer the Phil-  
ippines it must be, by sheer force of  
arms.

### Chas. M. Pinkham Dies.

Lynn, Mass., Nov. 10.—Charles H.  
Pinkham, proprietor of the Lydia E.  
Pinkham Medicine Co., died this morn-  
ing aged fifty-six. He was a civil war  
veteran.

## BRYAN NOT TO ENTER CLERGY.

Story That He Will Become a Presby-  
terian Minister Is Denied.

Lincoln, Neb., Nov. 10.—W. J. Bryan  
is not to enter the ministry. He was  
told today that a story had been  
printed in which Colonel Wynne of  
Fort Worth, Tex., was quoted as de-  
claring that he (Bryan) had told  
Wynne he would become a minister if  
he was defeated for president. "There  
is not a word of truth in it," was Mr.  
Bryan's reply.

Mrs. Bryan, who was present said  
that she did not know Colonel Wynne,  
and she wondered how many more  
stories affecting the Bryan family  
would be sent out from Texas. Mrs.  
Bryan said the question of entering  
the ministry had been suggested to  
Mr. Bryan, but he had no intention of  
adopting that calling.

## LOREN F. WOLCOTT OVER 100 YEARS OLD

Passed Away at Sparta, Gratified at  
the Election of McKinley—His  
First Vote for J. Q. Adams.

Sparta, Nov. 10.—Loren F. Wol-  
cott, aged 100 years, 6 months and 15  
days, died at his home in this city  
Wednesday and was buried yesterday.  
He lived just long enough to hear the  
election returns which was his wish.  
Mr. Wolcott celebrated his 100 birth-  
day last April. He was born in Bur-  
lington, Otsego County, N. Y., April  
22, 1800. He had been married three  
times; the present Mrs. Wolcott is 45  
years of age. He married her when  
he was 84 years of age. He was the  
father of seven children, all of whom  
are dead. He had nine grandchild-  
ren and nine great grandchildren.

Mr. Wolcott came to Wisconsin in  
1855 and built a log cabin when there  
were only two log cabins on the site  
of this city. He had lived in this  
city ever since with the exception of  
two years. Long life is hereditary  
in the family.

## BIG GAIN IS MADE BY LA FOLLETTE

His Plurality for Governor Exceeds  
That of Governor Scofield Four  
Years Ago by 7,476.

Madison, Wis., Nov. 10.—While the  
republican vote for McKinley shows  
a gain in Wisconsin over that of 1896  
of 3,734, the vote for governor shows  
a gain for La Follette of twice as much  
or 7,476.

According to the additional county  
returns received yesterday the republi-  
can pluralities in the state for Mc-  
Kinley aggregate 109,582, and the dem-  
ocratic pluralities 3,214, making the  
net plurality for McKinley 106,368,  
from ten of the seventy counties and  
from these nearly complete returns  
with close estimates are at hand. The  
total of the official count is not  
likely to differ materially from the  
figures given. McKinley's plurality  
in 1896 was 102,812, and the republican  
gain for president is therefore 3,734.

On the vote for governor even a  
larger gain is shown by the table of re-  
publican state central committee and  
as follows: Scofield's plurality in  
1896, 95,724; La Follette's plurality in  
1900, 103,200; La Follette's gain,  
7,476.

## GEN. OTIS TAKES COMMAND.

Luzon Campaigner Takes Charge of De-  
partment of Lakes.

Chicago, Nov. 10.—Major-General El-  
well S. Otis, famed as chief of the Ameri-  
can forces in the Philippines, ar-  
rived in Chicago today and at once  
took command of the department of  
the lakes, in accordance with recent  
orders of the war department. Gen.  
James S. Wade, who has been in com-  
mand temporarily since the retire-  
ment of Maj.-Gen. Wheeler about two  
months ago, left last night for his  
regular station in St. Paul.

Gen. Otis' first day in this depart-  
ment was a quiet one. He made no  
immediate changes in the order of  
procedure established by his predeces-  
sors and intimates that it is not his  
intention to do so in the future. Most  
of the day he spent in visiting the va-  
rious departments of the army head-  
quarters here, making the acquaint-  
ance of officers in charge, and becom-  
ing conversant with the business of  
the office.

No demonstration attended his ar-  
rival. He slipped in quietly without  
having informed any of the officers of  
the exact day he expected to take com-  
mand. His coming today, was a sur-  
prise to many.

his home at Cirrhosis of liver and

breaking up day at republican national  
headquarters. The general fare-  
wells were said this morning. Han-  
na goes home tonight.

## LORD SALISBURY STARTLES ENGLAND

IS PLEASED OVER THE RESULT  
OF AMERICAN ELECTIONS.

Comment on Internal Affairs of Another  
Power Occasions Surprise—Fears  
for World's Peace—He Expresses  
Gloomy Foreboding Over Near Fu-  
ture and Urges England to Prepare

London, Nov. 10.—Lord Salisbury  
has given the English public two new  
sensations. At the Lord Mayor's  
banquet last night the premier de-  
parted from the unwritten law which re-  
quires a minister of foreign affairs  
to refrain from making public com-  
ment of the internal affairs of another  
power, and in plain words asserted  
his supreme satisfaction over the re-  
election of President McKinley. And  
when he declared, "We believe that  
the cause which has won is the cause  
of civilization and commercial honor,"  
the walls of the Guild Hall fairly rang  
with the cheers of hundreds of promi-  
nent guests.

The British Premier's open avowal  
of sympathy with the republican party  
was so unusual as to call from the  
United States Ambassador Joseph H.  
Choate, the remark that he ventured  
to congratulate the noble lord upon the  
fact that his remarks had been made  
after instead of before election.

### Hints of End to Peace.

Lord Salisbury's second sensation  
was direct admission that "the trend  
of events has almost put an end to  
the hopes of those who took part in  
the peace conference of the Hague,"  
and an appeal to the people of England  
to maintain their defenses in such a  
perfect condition that "We shall not  
be exposed to any sudden interrup-  
tion of that peace upon which our  
prosperity depends."

The majority of Lord Salisbury's  
hearers believed that this warning  
which was delivered in his most im-  
pressive manner, referred to the pos-  
sibility of French antagonism.

At the banquet at Guild Hall, which  
followed the installation of Lord Ma-  
yor, there were 900 guests, including  
United States Ambassador Choate,  
the members of the diplomatic corps,  
of the British cabinet, prominent party  
leaders, and many leading citizens of  
England.

### Premier in Gloomy Mood.

Except in its references to the United  
States, the speech of the premier  
cast an extraordinary gloom over the  
gorgeous banquet.

Following directly after the Colonel  
commanding the City Imperial volun-  
teers, Lord Salisbury startled his  
hearers who caught the drift of his  
remarks, by satirizing the war fever,  
although praising the courage of the  
soldiers, and declared that the passion-  
ate admiration of military valor evinced  
by the populace must produce a  
change of attitude on the part of the  
outside world when viewing the Eng-  
lish character.

Then, with lowered voice and almost  
trembling accent, he went on to speak  
of the price of victory and the ravages  
of death, dealing especially with the  
Queen's bereavement in the loss of  
Prince Christian Victor.

Finally, with bent head and hands  
clapsed, he uttered a hope, almost a  
prayer, that Lord Roberts might be  
spared the sorrow hanging over him  
by reason of the critical condition of  
his daughter. Tears sprang to the  
eyes of women and men moved uncom-  
fortably in their seats. The silence  
and solemnity grew oppressive.

## GEN. BRAGG ADVISES A DELAY.

Wisconsin Man Says It Is Too Early to  
Talk of Reorganization.

Milwaukee, Wis., Nov. 10.—General  
E. S. Bragg telegraphs from Fond du  
Lac: "It is too early to talk of reor-  
ganization. Bryan is beaten and I  
hope in the future will resume his  
party name—populist."

The democratic leaders here do not  
favor the suggestion of Don M. Dick-  
inson for a reorganization of the party.  
T. E. Ryan, E. C. Wall and Louis  
G. Bohrnich are opposed to it.

Concerning the project of reorgani-  
zation William Vilas says: "You can-  
not wisely operate on a patient in utter  
collapse. When natural revival  
comes, if party conscience comes  
back with returning vitality, the way  
to democratic victory is plain as the  
path of honesty and fidelity. Let dem-  
ocracy turn from wits folly and live."

## REVIEW OF BRYANISM.

CHICAGO CHRONICLE, (Dem.)

The Chicago Chronicle, the leading democratic paper in the west, has the following scathing review of Bryanism and its effect upon the recent election:

From Maine westward to the Rocky mountains, north of the Ohio river line, there is not a democratic governor, there is not a democratic United States senator, there are few democratic congressmen, and democrats in office of any description are so rare that a party embracing at least one-half of the population may be said almost with liberal truth to have been excluded from participation in public affairs.

To this humiliating estate the mongrel combination between the worst elements of democracy north and south and the populism of the west has brought a once proud political organization which has controlled the affairs of the republic in many important eras and which should control them today.

Without arrogance, without malice, without departure from the truth in the smallest degree, it should be said and said plainly that the people of the north are better fitted by character, by intelligence and by industry than those of any other section to rule this government. They have ruled it for forty years and nothing is more impressively written in the book of fate than the fact that they are to rule it for many generations to come.

The people of the north have their faults, as every people must have, but such as they are, with the light given to them, they are the people to whose judgment all questions of politics must be referred and to whose decision all parties must bow.

In the main these people are honest, just and generous. They are pre-eminently progressive, energetic and ambitious. They are sagacious and far seeing. They are self-reliant. They are proud. They are filled with a mighty faith in themselves and their country. They are brave and high spirited. They may be grasping, they may at times be avaricious, they may on occasion forget or ignore the rights of others, but they are well grounded in all that is best in the civilization of their time. They are not afraid of any responsibility which rightfully falls upon them.

The impossible has been undertaken. The inevitable has been the result. To make sure of one populist two democrats have been driven away. To lure one socialist a dozen individualists have been lost. To gain one money lunatic three sane men have been alienated. To coddle and pamper a mere handful of radicals advocating every quack theory known to mankind since the dawn of civilization whole troops of conservative business men have been antagonized. To defy the tramp it has been necessary to damn the millionaire, whether he deserved it or not.

Shall the enlightened citizens of Tin Cup, Col., and Red Dog, Ark., give politics to the American people? Shall the eminent financiers of Yell county and Yazoo, not to mention their brethren in the steadily mining camps of the far west, give finance to New York, Chicago and Boston? Shall the agricultural statesmen from the populist districts revise the laws of trade and commerce?

Shall the pure philanthropists of the slum forums and the saloon rostrums direct the thought and mold the opinions of the United States? Hardly. The task is entirely too big for them, as even they will confess. They have attempted it. They have failed. Let us admit in charity that they did their best.

The intelligent democracy of the north must give democracy to the republic. Men of affairs, men of property, men of brain and conscience must be called back to leadership. It is not a crime in this country to have money, property or a clean shirt. It is not a passport to leadership in genuine democracy to be garrulous, drunk, covetous, or disorderly. It is not necessarily in evidence of a man's fitness for democratic leadership that he hates and fears "niggers." It is no proper introduction to democratic circles to say of a man that he is envious, malignant and menacing in the presence of wealth, thrift and industry. It takes

something more than a loud advocacy of state ownership and other socialist dreams to give a man good standing among democrats.

If the old democracy is to reappear the populists, socialists, tramps and anarchists must be eliminated. The moss-backs of the south, the corruptionists and radicals of the northern cities and the crazy populist malignants of the far west must give place to men of standing and character who can command the respect and the support of the conservative elements of the population everywhere. When there are signs of such a movement we may look for the reappearance of democracy, and not before.

The history of American democracy shows nothing more conclusively than the fact that adherence to principle is the first law of party existence. With principle stoutly upheld the populists and socialists may and probably will organize against democracy, but in the presence of genuine democracy their following will disintegrate and fade away. With principle abandoned in the hope of winning the votes of populists, socialists and other forces of disorder democracy itself must disintegrate and fade away. Such is the alternative.

To real democrats, therefore, the question, in a word, is live or die! Shall it be life or shall it be death?

Applies by the car, barrel or bushel at Dedrick Bros., and fine ones too.

## TOBACCO INDUSTRY GROWS EVERY YEAR

THIS YEAR 8,000 ACRES, WORTH \$600,000 WAS RAISED.

Much Better Prices Prevail Than Last Year—One Drawback Is the Amount of Pole Rot—Next Year Will See an Increased Acreage in the State of Wisconsin.

The tobacco raising industry in this county has grown into an immense business. In 1900 between 7,000 and 8,000 acres of tobacco, representing in the neighborhood of \$600,000 has been raised.

This year much better prices prevail than last. The binder crop is much better and there is an increased demand for it. The failure of the quality in the east this year is one of the reasons why there is such a demand for the Wisconsin crop.

One drawback to the this year's crop is the amount of pole rot and she-burn that has appeared since the tobacco has been shedded. Next year will see an increased acreage in many parts of Wisconsin. In Vernon county this year there was an increase of over 800 acres over last year. In that locality the farmers are breaking up new ground preparatory to putting in next year's crop.

Many farmers do not raise tobacco, and devote their entire farm to raising grain, corn and stock. Some of them claim that the crop is uncertain, that they neglect the balance of the farm for the tobacco land and that more clear money can be made in a year by not raising tobacco. On the other hand other farmers raise both grain, stock and tobacco. They claim that the tobacco crop fits in between the other work and if carefully managed, is no detriment to the balance of the farm. The income from a few acres of tobacco land is greater than that of a much larger amount of land when used for raising grain.

Of one thing there is no doubt, no crop raised by the farmer brings in as much ready money at one time, as a good crop of tobacco. The farmer is put to no trouble or expense to sell the crop. Buyers go out from the town and purchase the crop and all the farmer has to do is to take the tobacco to the warehouse and get his money. A good crop of tobacco is a blessing to any farmer that can get it in shape for the market. It brings eastern capital west. It distributes it all over the western country and puts many a dollar in the hands of the farmer, that otherwise would remain locked up in the vaults of the eastern money markets.

## A HEAVY DEMAND FOR IRON.

Large Contracts Being Placed for Pig at Better Prices.

### RAILROADS BUYING FREELY.

Tardy Winter Weather Playing Havoc with Textile Industries—Wool Is More Active—Manufacturers Buying in Moderation.

New York, Nov. 10.—"Iron markets are in an encouraging condition. No violent speculation is threatened, but in numerous instances better demand has caused small advances. The most notable change thus far is in pig iron, which is eagerly sought at all markets, large contracts being placed at 25 to 50 cents a ton above the bottom point recently quoted. In partially manufactured forms, such as bars, plates and beams, improvement is definite, while large building operations will keep structural material moving freely. More ships are planned, and bridges require quantities of material. Railroads are buying most products freely. Orders for export are numerous, and foreign makers have been compelled to reduce prices for steel rails," according to R. G. Dun & Co.'s Weekly Review of Trade.

Continuing the report says: Spot cotton has not advanced as expected on the approach of frost. Actual damage has not come, and belief in a current yield of 10,500 bales is stronger. British exports of yarns and cloth in October showed a loss, making the total for the year very heavy. Russian ports send out wheat freely, and even in Argentina the outlook for the crop is less discouraging, although the quality in some districts will be inferior.

**Farmers Are Holding Corn.**  
Speculative selling here for foreign account meets every advance, and exports are behind last year's. Western receipts are fairly large, but the movement of corn into sight and out of the country is extremely light. A heavy cut in the price of refined sugar by all the large interests brings standard granulated at 5.60c.

Speculation in hides appears out of proportion to the business in boots and shoes. Prices at Chicago have advanced for some months with scarcely any reaction, and leather has only partially responded, while boots and shoes average the same price as two months ago, when the bottom was reached after a long season of declining values.

New England shops are doing well at present, but any attempt to secure better quotations promptly restricts business. Shipments from Boston are slightly under recent weeks, but there are ample orders so long as goods do not respond to more expensive raw material. This state of affairs cannot continue indefinitely.

Tardy winter weather is making havoc with textile industries, and almost counteracts the election. Wool is more active at Boston than any previous time this year, but speculation is reappearing. Manufacturers buy in moderation, but sales at the three chief eastern markets reached 8,131,000 pounds. Prices are steady and holders are confident, although heavy stocks are available.

Failures for the week were 201 in the United States, against 157 last year, and thirteen in Canada against twenty-three last year.

### Bradstreet's Review of Trade.

Bradstreet's will say: Wheat, including flour, shipments for the week aggregate 3,555,507 bushels, against 3,612,421 last week, 4,650,842 in the corresponding week of 1899, 3,774,693 in 1898, 5,445,542 in 1897, and 4,684,515 in 1896. From July 1 to date this season wheat exports are 67,412,071 bushels, against 77,239,858 last season and 77,620,216 in 1899-1899.

Corn exports for the week aggregate 3,287,627, against 3,920,110 last week, 4,581,447 bushels in this week a year ago, 2,342,745 in 1898, 2,651,546 in 1897 and 3,782,036 in 1896. From July 1 to date this season corn exports are 60,668,079 bushels, against 53,423,247 last season and 53,297,192 in 1898-1899.

### Lynching Is Threatened.

Navasota, Texas, Nov. 10.—As a result of the tragedy of Wednesday, in which three men were killed at Anderson, excitement runs high in that town. Sheriff Garrett Scott and a few friends are holding the jail against a crowd of armed citizens numbering 100. All business is reported suspended at Anderson and armed men are hurrying there from the country. It is believed that there will be an attempt to take Scott and his followers out of jail tonight or tomorrow and serious trouble is feared.

## THE BOY IN THE HOME.

Happy is the home that has a boy in it. Some one says, "that's a good proposition on general principles, but it all depends on the boy." Give the boy the benefit of the doubt and state the proposition from his standpoint. Happy the boy that has a home. Not simply a place where he eats and sleeps, and to which he retires when he has no other place to go, but a home freighted with all the significance that the word implies. This kind of home with almost any kind of a boy, usually means mutual happiness and helpfulness.

This boy problem is one of the great problems of the day. It is broader and more significant than political campaigns, because it touches life at every point, and has to do with government in every department.

The social, economic, professional, industrial and religious life of the decade just ahead, depends very largely upon the boy of today, and the boy's future depends just as largely upon the home and its environments.

"What shall I do with my boy?" is the perplexing question that comes to the home with repeated persistency; a question that every honest father and mother meets with grave solicitude, and not infrequently with discouraging results. Who is to blame for these conditions, the home or the boy? Any candid mind will say, "Usually the home." If this verdict is correct then there must be something radically wrong in the management of the home.

What is the trouble, and why is it that so many boys out of apparently good homes either go to the bad, or wreck their lives by failure and disappointment.

The average boy is a peculiar animal, possessing all the qualities of mind and heart that, if properly directed, win manhood and success; but also possessing qualities equally pronounced, that if not properly directed, or if neglected, mean failure and frequently ruin.

It is just possible that you don't know your boy, and this may account for your lack of influence over him. To be sure he sits at your table and is a member of your family, but do you ever get up close to him, so close that he feels your presence and realizes that the name father and mother means more than a mere title. Do you ever make a companion of him, and take him into your confidence, and invite him to trust you with his boyish hopes and ambitions, however visionary they may be. Do you ever study his restless and tireless energy during the all-important years of his development, with knowledge of the fact that these God-given instincts are the sacred heritage in embryo, of a mind possessing grand possibilities under right conditions. Do you ever plan for his future, not in a general but in a specific way, and in the planning do you take into account the genius of the lad, and the bent of mind that inclines him to take interest in certain things and neglect others? Does it occur to you in the planning that a boy whose head is full of mechanical genius, who spends his leisure with hammer and saw or with square and compass, will make a first-class mechanic with ordinary encouragement, but a second rate professional or business man, however much you may crowd him?

Don't you find it easier, as too many parents do, to say, "We'll give the boy an education and then he must shift for himself," without regard to the shifting process when he is ready to try it? There are a great many men who shift through life, and then shift off this mortal coil at the end of it, with failure as a monument to their memory, because they were turned loose in young manhood with a one-sided education and a false conception of life, to shift for themselves.

The business and professional failures, that are of daily occurrence, are not many of them chargeable to dishonesty either of effort or character, but they are the legitimate offspring of misdirected energy in channels where almost every quality necessary to business is lacking, and due to the fact that back in the years the boy was turned loose to shift for himself.

It has always been and will continue to be a perplexing question to know what to do with the boy to insure success; but with the help of modern and more practical education furnished in the way of manual training, the intelligent parent should be able to determine long before the boy is ready for active life, something about his adaptability for work, and when this important truth is discovered, every wise parent will encourage its development, so that when the boy is turned loose to shift for himself, he will be able to desert the ranks of shifters at a single stride, and enter

the ranks of successful workers because of the practical preparation that a wise guiding hand has helped him to acquire.

"The boy in the home," will be the man of destiny in whatever calling he may choose, if the home appreciates the responsibility and meets it with wisdom and intelligence. Give the boy a chance and help him to the opportunity, and as a rule, results will not be disappointing.

Senator Hanna has set at rest all speculation as to his political ambitions for the presidency, by declaring that under no conditions will he be a candidate. His work for the party during the campaign has been intelligent and effective. He has been traduced and maligned by his enemies and some of his professed friends, yet has passed through the ordeal untarnished in character or reputation. He is made of the right stuff and will honor any position that may come to him.

People who think that Richard Croker is dead, will be surprised to find that he will be very much alive in the next campaign. He was the only prominent democratic leader that possessed the nerve to invest energy and money in a campaign that he knew was hopeless from the start. He was working, not for Bryan, but for the future of the democratic party, and if that badly shattered relic is ever reorganized, Mr. Croker will be very much in evidence.

It looks very much as though Senator Spooner might find a seat in the cabinet. His many friends in Wisconsin will rejoice if such is the case. Senator Spooner is too good a public servant to retire to private life, and if the state is to be deprived of his services, the nation will make no mistake in securing the man.

John J. Lentz, the democratic congressman from the twelfth district, Ohio, spent too much time campaigning in the west and is said to be beaten by eight votes. His district is usually good for 2,500 democratic majority.

Coin Harvey is disconsolate and sees nothing but ruin ahead for the country. He proposes to place himself beyond the reach of harm by locating in Arkansas.

Mr. Bryan says that he has no ambition for the senate but might be persuaded to take the presidency in 1904. The democratic party will do well to keep an eye on him.

John G. Carlisle realizes the importance of prompt action by the democratic party to prevent populism and free silver from capturing the next national convention.

Senator Pettigrew is looking around for a new party. He is not alone in the quest. Bryan, Debs and Harvey are waiting to be organized. The Dakota senator should go west.

Grover Cleveland has come out from cover long enough to predict that old-time democracy will be redeemed. Kentucky is still voting and will keep it up until Beckham is counted in.

Nebraska comes into line with 4,000 republican majority. Mr. Bryan's oratory played havoc in his own domain.

Many American Exhibitors. The American manufacturer has lost no opportunity at the world's fair in Paris, and in numbers is far in excess of any other foreign nation. There are 5,564 American exhibitors, numbering ten times more than Great Britain, three times more than Germany and four times more than Russia. Our exhibits cover nearly eight acres.

## MUST BELIEVE IT.

When Well Known Janesville People Tell It So Plainly.

When public endorsement is made by a representative citizen of Janesville the proof is positive. You must believe it. Read this testimony. Every backache suffered, every man, woman or child with any kidney trouble will find profit in the reading.

Mr. John Stetson, of Hotel Myers, day clerk, says: "A physician pronounced my 'kidney complaint.' If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks, sometimes violent, sometimes a dull grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed a recurrence of my old trouble."

## AMERICAN TINPLATE IN WALES

Tables Are Completely Turned by Our Manufacturers.

London, Nov. 10.—Not satisfied with having despoiled Wales of its former exclusive market for tinplate in the United States, the American mills are now about to capture the domestic trade. The importation of American tin bars has been quietly but steadily increasing, until the manufacturers of Glamorganshire have begun to describe the situation as "serious." What is said to be the heaviest importation on record arrived at Swansea from the United States today. It comprises 3,500 tons. Two other large consignments are due later in the month and more is expected before the end of the year. As in the case of steel and iron, American tinplate is laid down on British soil at a cheaper price than that at which home manufacturers are able to offer it.

## YOUNG GIRL IS MURDERED

Shocking Crime Committed in Colorado—Lynching May Result.

Limon, Colo., Nov. 10.—Louise Frost, 11 years of age, daughter of a ranchman, was found last night unconscious and bleeding from many wounds in a patch of weeds about half a mile from her father's house. She had been stabbed, apparently with a dirk, no less than fourteen times. She died at midnight without having regained consciousness. The physician who attended her expressed the opinion that the girl had been grossly maltreated before receiving the wounds. She was evidently waylaid when driving home from school, for her horse reached the stable about dusk with the buggy empty. Posses are scouring the country in every direction, and the murderer will probably be lynched if captured.

Of 1533 Orange Street, Los Angeles, Cal., writes: "I had been afflicted with my eyes for over a year with such a dreadful itching and inflammation that I could not use them for anything. Physicians had given me many different remedies which were like using so much water; they measured my eyes for glasses, which I got and wore for some time, but they did not benefit me in the least. My mother desired me to write to Dr. R. V. Pierce and explain the condition of my eyes. I did so, and after following your advice, and using eight bottles of the 'Favorite Prescription' and eight of the 'Golden Medical Discovery,' I can say my trouble is entirely cured. I would advise any one so afflicted to try these wonderful medicines. My health was never so good as it is now, and I shall never tire of praising Dr. Pierce's medicines." The unofficial figures given as to who headed the ticket in this county as far as majorities were concerned were wrong. La Follette heads the list with 5,180. He ran ahead of McKinley 27 votes.

Register of Deeds Rowe comes next with 5,172.

McKinley is third on the list with a majority of 5,133.

County Clerk Starr comes fourth with a majority of 5,138. Then follows in succession Cooper 5,127, Booth 5,127, Jackson, 5,126, Golden 5,108, Rice 5,084, Maltress 4,356, Whitehead 2,498, Ross 1,847, Thorne 1,778 and Valentine 714. Surveyor Kerch having no opposition had 8,217. The majorities of the heads of the tickets ran very even. Where a majority is reduced the opposing candidate lived in a heavy voting district or city.

The vote on the soldiers' monument is carried beyond a doubt. But two towns are yet to be heard from and as far as they are concerned if the whole town voted against the monument it still would have a majority in its favor. The ballot for voting on the monument according to the law for voting on amendments or other propositions must be placed at the bottom of the general ticket. While a great many people did not notice the ballot it could not under the law be placed on a separate sheet.

## REBECCA'S VISITED THE BELOIT LODGE

DELEGATION OF 38 FROM HERE WENT DOWN LAST NIGHT.

Staff From the Janesville Lodge Put the Work On the Floor For the Line City Lodge—Banquet Was Given—Those in the Party That Went From Janesville.

A delegation of thirty-eight members of the Janesville lodge No. 171, Daughters of Rebecca left last evening at 6 o'clock on the C. & N. W. R. R. for Beloit where they paid a visit to the Sybil lodge No. 164 of that city.

It was a jolly crowd that left at that time for Beloit; the anticipation of the pleasures of the evening putting all in the best of spirits. On reaching Beloit the delegation went immediately to the lodge room where they were given a royal reception. After spending some time in social conversation the party adjourned to the lodge room where the staff from Janesville lodge put the work on the floor for the Beloit lodge.

The candidates were initiated and the work of the Janesville lodge was highly commended. The Janesville lodge has one of the best drilled staffs in the work of the order in the state. After the lodge work was completed the members were invited to step into the banquet hall where an elegant banquet was served. The tables were loaded with good things to eat and there was nothing lacking that a person could desire. The banquet was under the supervision of Caterer L. Smiley and was certainly an honor to his skill as a caterer.

After the banquet was finished the party returned to the lodge rooms where the balance of the evening was spent in speaking, card-playing and other amusements. The music for the dancing was furnished by the orchestra from Janesville lodge. The time slipped away swiftly and before those present realized it they were notified that it was 1:30 o'clock and time to station where their special car had been side tracked awaiting their return.

Congratulations were extended to the members of Sybil lodge by the visitors for the handsome manner in which they had been entertained and it was with a feeling of regret that they left for the train. They were escorted to the train by a delegation from Sybil lodge.

Arrangements had been made with the railroad company for their return at two o'clock, but the train was late and did not reach Beloit until 5:05 o'clock in the morning. When it was found that the train was not likely to leave for some hours the party inaugurated a number of features by which the time would pass swiftly.

Finally the train pulled into Beloit and the party left for this city, where they arrived at 5:40 o'clock this morning a tired but happy party.

B. F. Blanchard and F. W. Clark had entire charge of the arrangements for the trip and great credit is due them for the happy manner in which everything passed off.

Those who attended from this city were:

Mr. and Mrs. B. F. Blanchard, B. F. Blanchard, W. Parison, G. Ercanbrack, L. Trambille, C. Stout.

Mrs. Esther Baldwin, Nevada Conroy, Sarah Duller, Ann Doy, Josephine Hanky, Josie Turabough, Belle White.

Italy's Navy Insufficient.

Rome, Nov. 10.—Admiral Accinzi, a leading man in Italian naval affairs, and on intimate terms with the present ministry, recently published an article on the Italian fleet, which is supposed to embody the ideas of the government. He, like Crispi, admits that the navy is insufficient, notwithstanding the 2,650,000,000 lire (\$511,450,000) spent since the unification of Italy to create a navy worthy of a first-rate power.

## FREAKS OF THE CENSUS

Strange Occupations Set Down by Enumerators.

## SOME PUZZLING ENTRIES MADE.

**One Professional Drunkard in Indiana—Southern Children Recorded as Farm Laborers—Attempts to Classify Tramps—A Pennsylvania German Enumerated as a Villain.**

One of the most interesting side issues in the twelfth census now being compiled is that which shows the vagaries of the army of enumerators who gathered the vast mass of census statistics, says the Washington correspondent of the New York Sun. Great care was exercised in the selection of the large number of enumerators, and as a rule they proved to be persons of intelligence. In a few cases, however, the necessities of the service were such and the available material so scarce that persons of mediocre ability were appointed as information gatherers. This was particularly the case in some parts of the south and west, with a scattering in the other regions. Notwithstanding the fact that every enumerator had carefully prepared instructions and schedules, the latter having printed headings over the columns for names, ages, occupations, nativity, etc., some of the enumerators succeeded in making amusing and enigmatic entries. The young women who manipulate the punching machines in the census office have found themselves sorely puzzled over some of these records.

Whenever the punchers found on the schedules an occupation which does not appear in the specially prepared and printed list furnished by their chiefs, they are instructed to punch it either "O. T." meaning "other things," or "N. G." standing for "not gainful." Thus when an enumerator in Indiana gave the occupation of a man as "drunkard" the puncher was in a quandary what to do. Her chief came to the rescue and informed her that drinking intoxicating liquors was certainly not a gainful occupation, especially as the next column on the schedule showed the man in question was so engaged 12 months in each year. She was therefore instructed to punch it "N. G." The same rule was followed when other enumerators entered a woman as an inebriate and certain men as toppers.

A New York enumerator, who was perhaps something of a sleuth, entered several men in his district variously as "crooks," "pickpockets" and "gamblers." For some reason these were entered under the head of "not gainful" pursuits. A Georgian who eked out an existence by doing chores about the neighborhood in which he resides will appear in the census as "odd jobs." His occupation will be found very properly under the head of "other things."

Each entry made on the schedules being paid for by the government at a prescribed rate, an enterprising enumerator in Ohio, seeking to swell his temporary income, sought the resort of a number of "Weary Willies" on the outskirts of his town and entered them. To each of these he gave the occupation of "tramp, not gainful." One of the western enumerators put down a worthless fellow, known as the town character, in the following: "Name, —; occupation, loafer; not gainful; unemployed 12 months in the year." An aged veteran of the civil war was entered in the occupation column as "lives on pension" and another as "unliver," while still another was reported in the same column as "lives on savings." Some of the other oddities of occupation are given: "Boarding," "visiting," "not at work" and "musically inclined." Of course none of these can be found in the prescribed list of occupations, and they are consequently entered variously in the "O. T." and "N. G." columns.

In many of the returns from the rural districts from the south a large number of children under 10 years of age are recorded as farm laborers, and under the proper headings it is said that they are so employed eight months and attended school but two months in each year. Two southern housewives appear in the occupation column as "does housework" and "minds baby."

Numerous Indians whose census has been taken appear on the lists as farmers, with here and there a hunter. Gypsies are given as horse traders and fortune tellers and in one instance as "hobo." A Kentucky woman whose husband is entered as an "idler" gave her occupation as "washing and wishing." The puncher who came across this entry remarked that the phrase meant that the woman was washing to support her 12 children and lazy husband and wishing that he would go to work and assist in the maintenance of their numerous offspring. In many of the returns from the southern states men of means and leisure are entered in the occupation column as "gentlemen" and in one instance as "rich." An invalid in Illinois is given occupation "laid up," and a paralytic figures in the same column as "has fits."

It remained for a Pennsylvania enumerator to record a German 45 years old as "occupation—villain." Whether this was the enumerator's personal estimate of the man or whether the German himself gave this unique and suggestive occupation is not known. Neither is it known whether the villain was entered as "N. G." or "O. T."

The twelfth census when completed will show many other odd entries concerning the cosmopolitan mass of upward of 80,000,000 people in the United States.

**POND'S EXTRACT**

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

## STOVE ECONOMY

The cost of the stove isn't all there is of shrewd stove buying. The main point is the expense of running it. Many stoves look well and are sold at a reasonable price that in the end are very expensive. They don't give the heat. They use over much fuel. Half the heat goes up the chimney, making the half you get cost twice as much as it should. In our Acorn Base Burner every bit of fuel is utilized in making heat that isn't wasted. It is handsome in appearance and not high in price.

### GOES TO DEATH IN A TRANCE.

Negro Murderer Is Electrocutted While Under Hypnotic Control.

Columbus, Ohio, Nov. 10.—Richard Gardner, who was executed here this morning, will go down in the history of criminology associated with a new development in the use of hypnotism, and his death suggests a new means of taking from murderers the terrors of the death chair. The execution was borne by the criminal—a negro from Florida—in a remarkable manner. He entered the death chamber with a smile, and took the chair in as firm a manner as though he were about to sit down to a meal. About two weeks ago, under the influence of the prison chaplain, Gardner was induced to make a confession. At that time he was a heinous example of the hardened criminal, and told the grown-up details of his crime which was the assaulting and subsequent murder of a 13-year-old girl. Since then he has been practically under the control of the chaplain. Before the electric current was turned on he was asked if he had anything to say. He replied, "God is love." He had every appearance of being in a hypnotic trance.

Farrall Sentenced to Be Electrocutted. Marysville, Ohio, Nov. 10.—Judge Melhorn this afternoon overruled the motion for a new trial and sentenced Rosslyn Farrall to be electrocutted on Friday, March 1, for the murder of Express Messenger Lane on Aug. 10 last.

### FIRE SWEEPS BILOXI.

Famous Mississippi Summer Resort Nearly Destroyed.

New Orleans, Nov. 10.—Upward of 75 houses have been destroyed by fire at Biloxi, Miss., a well-known summer resort and business center on the Mississippi sound, eighty miles from New Orleans. The fire broke out shortly after midnight, and a heavy gale blew the flames from the Louisville & Nashville depot to the beach.

The small fire department was powerless to stay the flames, and houses had to be torn down in various parts of the city to check the spread of the conflagration. The Catholic church, convent and schools, newspaper offices, many business houses and residences have been consumed. Hundreds of persons have been rendered homeless.

The inhabitants were panic stricken when the last reports reached here from the town.

It is said the losses will exceed \$300,000.

### An Objection That Prevailed.

A man was struck off the voting list at Streatham on its being objected that he "was an alien, had gone away, and was dead." The revising barrister said that was conclusive.
